SmartStruxure Lite Solution

Get control. Get efficient. Get value.

Integrated small- to medium-sized building management
Make the most of your energy℠

Schneider Electric

SmartStruxure Lite Solution

Delivering BIG savings for small- and medium-sized buildings

> With the introduction of SmartStruxure™ Lite solution, small- to medium-sized commercial buildings now have an affordable building management solution to meet their needs. By providing anytime, anywhere access to building information on a simple user interface, SmartStruxure Lite solution lowers energy costs without compromising on comfort.

SmartStruxure Lite

SmartStruxure Lite

SmartStruxure Lite

High performance meets affordability

SmartStruxure Lite solution is a fast, easy way to future-fit your small- to medium-sized building using Web and wireless technology to control HVAC, lighting, and metering. Save energy, save time, and improve comfort with minimal impact on operations.

Get control

SmartStruxure Lite solution is an affordable solution for those who don't need or can't afford a large building management system — helping you control your building's energy costs and improve comfort for maximum productivity.

> Flexible monitoring, control, and scheduling options
> Simple Web interface delivers one-click access to your site's data
> Wireless technology makes it a perfect solution for retrofits
Get efficient

Because you can't control what you don't measure, SmartStruxure Lite solution provides the tools you need to operate your small- to medium-sized building at peak efficiency.

> Delivers immediate energy savings and reduced operational costs
> Easy-to-operate mobile platform for anywhere, anytime access to integrated building data
> View all your systems on a single, customizable user interface

Get value

SmartStruxure Lite solution prepares your building for the challenges of rising energy prices and stricter efficiency regulations.

> Scalable, future-proof solution that grows with your business
> Instant return on investment through lower energy costs
> Maintain day-to-day building operation during installation

Control your building of less than 10,000 square meters (100,000 square feet) for comfort and efficiency.
